

Field-Proven Performance

Kinitics Automation's KVA38 has a proven track record of operating oil & gas facilities in Canada's harshest climates. In 2024, three KVA38s were installed on a new three-phase separator for a natural gas well near Edson, Alberta. These actuators demonstrated excellent control while reducing maintenance and downtime.

**Power Supply: 24VDC
900W Solar/Generator**

**8x 12V AGM Batteries
Total Capacity: 480Ah**

Maintenance Operations

Unplanned Shutdowns

Application	Operating Time	Cycles	Avg. Power
Level Control (Condensate)	408 days	21,831	5.4W
Level Control (Water)	408 days	27,680	6.9W
Backpressure Control	436 days	N/A	77W
Gas Separator	400+ days		<100W
